

ANIKET RAJ

Bhubaneswar, Odisha, India | aniketraj3105@gmail.com | [linkedin.com/in/aniket-raj-883081294](https://www.linkedin.com/in/aniket-raj-883081294)

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with strong foundation in web development, programming, and software engineering. Proficient in Java, Python, and JavaScript with hands-on experience building scalable web applications. Passionate about solving complex technical challenges and contributing to innovative software solutions.

EDUCATION

Gandhi Institute for Technology (GIFT), Bhubaneswar, Odisha
Bachelor of Technology in Computer Science

August 2023 – August 2027
Expected Graduation: 2027

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Software Engineering
- Active member of coding club and technical societies

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, HTML, CSS, SQL

Web Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, RESTful APIs

Database: MySQL, MongoDB, PostgreSQL

Tools & Frameworks: Git, GitHub, VS Code, Postman, Bootstrap, Tailwind CSS

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving, Debugging, Code Optimization, Agile Methodologies

PROJECTS

E-Commerce Web Application

[Technology Stack]

- Developed full-stack e-commerce platform with user authentication, product catalog, and shopping cart functionality
- Implemented responsive UI using HTML, CSS, and JavaScript with backend API integration
- Designed and optimized database schema for efficient product and user data management
- Integrated secure payment gateway and order tracking system

Task Management Dashboard

[Technology Stack]

- Built interactive task management application with drag-and-drop functionality using JavaScript
- Implemented CRUD operations with RESTful API architecture
- Designed responsive interface optimized for mobile and desktop devices
- Incorporated data persistence using local storage and backend database integration

Algorithm Visualizer

Python, JavaScript

- Created interactive visualization tool for sorting and searching algorithms
- Developed clean UI to demonstrate algorithm efficiency and time complexity
- Implemented multiple algorithms including Quick Sort, Merge Sort, and Binary Search

ACHIEVEMENTS & CERTIFICATIONS

- Solved 200+ problems on LeetCode and HackerRank focusing on data structures and algorithms
- Completed online courses in Web Development, Python Programming, and Data Structures
- Participated in college-level hackathons and coding competitions
- Contributed to open-source projects on GitHub

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- Active participant in college technical fest and coding workshops
- Volunteered as peer mentor for junior students in programming fundamentals
- Organized coding bootcamp sessions for freshmen students
